

NEW

AquaVac® 500

ROBOTIC CLEANER

Scrubs, vacuums pool floor, coves, walls and waterline with computer efficiency.

The new AquaVac 500 comes equipped with a microprocessor-based program that determines the most efficient cleaning path possible. With its Dual-Mode technology, it is now possible to choose from just two cleaning programs: a fast Bottom only or a deep full Bottom, Wall and Waterline cleaning. Pool owners can simply select the cleaning frequency that best matches their pool debris load, and AquaVac 500 gets to work, using powerful, dual scrubbing brushes that scrub and vacuum the entire pool. Working independently of the pool filtration system, it uses 94% less energy than most pressure cleaners and can pay for itself in little over a year, depending on local energy rates. Discover why AquaVac 500 is the most efficient, self-sufficient cleaning solution on the market.

Low-profile cleaning. High-profile results.

AquaVac® 500 features and benefits:

- Top-access debris container allows for quick debris removal and easy cleanup.
- New microprocessor-based program calculates the most efficient cleaning path.
- Features Dual-Mode technology with two cleaning programs: fast 90 minute Bottom only or deep 3-hours Bottom, Wall and Waterline cleaning.
- Integrated Recurring Timer allows you to choose cleaning frequencies every 24, 48 or 72 hours.
- Includes a Clean Now option that doesn't repeat.
- Dual powerful scrub brushes for a sparkling clean pool.
- Cord Swivel just about eliminates cord tangling.
- Uses up to 94% less energy than most pressure cleaners by operating independently from the pool's filtration system.

Power Supply with Integrated Recurring Cleaning Timer and Dual-Mode

One Complete Cleaner Kit includes Caddy Cart

Anti-Tangling Cord Swivel

Filter removes easily from filter frame

**Optional Accessory:
Spring Clean-Up
Filter Element
Model RCX70101**

AquaVac 500 Robotic Pool Cleaner

Top-Access Filter Capacity	4.9L
Filter Media Type	2 ultra-fine porosity filter elements
Programmed Function	Microprocessor with ASCL/adaptive seek control
Brushes	Dual scrubbing brushes (Foam Roller option for tile & Fibreglass)
Power Supply With Integrated Timer	Select to clean every 24, 48 or 72 hours. Clean Now option—doesn't repeat.
Cleaning Mode	Fast 90 minutes Bottom only Deep 3-hours Bottom, Wall and Waterline Full Pool Coverage
Power Cord & Swivel	60 feet/18.29m (Kevlar®) reinforced
Pool Coverage	Cleans concrete, vinyl, fiberglass and tile residential pools up to 6m x 12m. Note: Tile & Fibreglass require the Foam Roller option.
Out-of-Water Sensor	Prevents cleaner from starting when out of the pool
Beach Entry Sensor	Detects when cleaner is climbing out of the water and automatically reverses direction
Power Supply Input Voltage	240 VAC/50Hz
Motor Unit	29 VDC/3.9 amps
Weight	12.2kg
